IMPORTANT TIPS

- Have enough disk space, good Internet connection, disabled VPN and Proxy server before starting the program. Do not use communication platforms such as Microsoft Teams, Zoom, etc. while the program is running.
- If you need to leave the world for a while and your stand would remain empty, go to the information stand and one of the organizers will inform potential applicants about your early return.
- There are two types of organizers on the ŠANCE Islands. The main organizers have a formal avatar, while the others have a lifeguard avatar. Every organizer will help you with any questions.
